LINING OUT STOCK

We are indeed glad to be able to offer such a line of Lining Out stock as we have this season. This, we think, is as good a selection of varieties and as good stock as is being offered by any grower. Most of these items can be furnished in thousand lots or more. Seedling stock is designated by the letter S. and practically all the other stock has been grown from cuttings and transplanted one or more times. We have smaller quantities of many more items but not in sufficient quantity to offer generally. If you can come and see the stock it is possible that you may find many more items that you will want.

We will have to offer in May and June a much larger list of rooted cuttings. If you are interested in these ask for list and prices.
